Dear Friend,

The One Step Closer to the Cure 2017 event was amazing with 1425 participants competing and supporting family and friends of ovarian cancer survivors. We were overwhelmed by the generous support of the Tampa Bay community in the aftermath of Hurricane Irma.

One Step Closer to the Cure is a great community event, most importantly, benefitting the goals of the Celma Mastry Ovarian Cancer Foundation (CMOCF): **to educate, fund research, and assist ovarian cancer patients.**

We are asking for your sponsorship to help us continue on our successful path. Our goal is to cover the costs of hosting the Race through sponsorships so that every dollar of the registration fee goes toward education, research and patient assistance!

**Proceeds from this event fund CMOCF's Hope Fund, which gives financial assistance to women in the Tampa Bay community during treatment and allows them to pay mortgages, rent and monthly expenses. Since the first One Step Closer event in 2010 CMOCF funded \$396,740.00 to women in treatment. Since the Inception of the Foundation we have assisted women in the amount of \$600,269.00.**

As a volunteer-based organization, your sponsorship funds a topnotch St. Pete event encouraging runners and ovarian cancer victims to return each year. We need your help to bring awareness to a cancer that needs to be found in its early stage and to increase survival rates and **get one step closer to the cure.**

Please review our sponsor brochure to learn about opportunities to promote your company or cause. Your commitment to help the goals of the Celma Mastry Ovarian Cancer Foundation is greatly appreciated.

We look forward to hearing from you. Together we can beat this disease.

Thank you,  
Claudette M. Carlan, Chairman
